Patient Information:

Name: John Smith

Date of Birth: 02/14/1970

Gender: Male

Patient ID: 98765

Clinical Findings:

Ocular Examination:

- Loss of the red reflex and blurry vision.

Visual Acuity:

- 50/100 vision in both eyes.

Visual Field Testing:

- Normal.

Vital Signs:

- Blood pressure: 130/70 mmHg
- Pulse: 68/min

Comments and Recommendations:

The findings suggest possible early signs of a lens opacity (e.g., cataract).

Further evaluation by an ophthalmologist is recommended to confirm the diagnosis.

Consider additional imaging or lab tests if clinically indicated.
